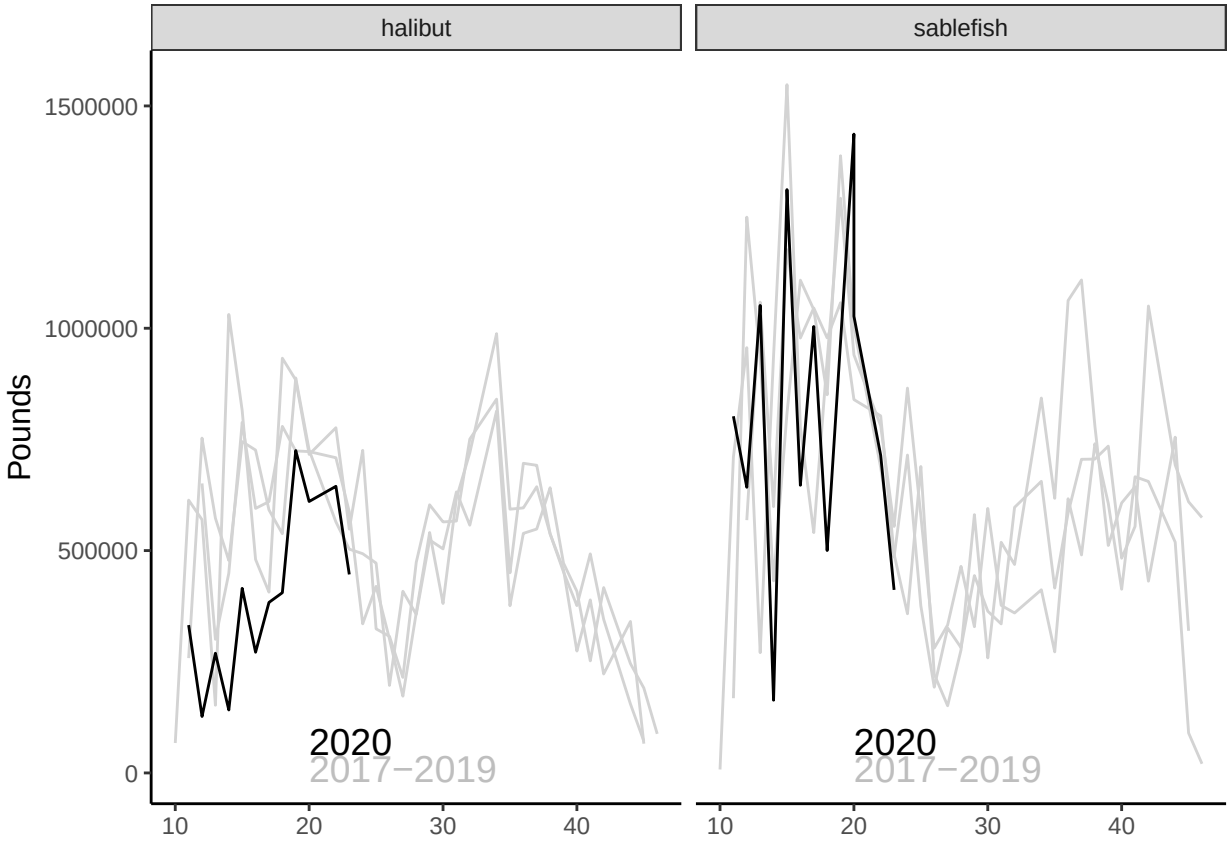
## Data summary of Safegraph foot traffic data

We examined 2,800 fish and seafood markets in US across the US. We noted that 37 of the 38 states with sufficient data saw declines in foot traffic in March 2019 compared to March 2020. Overall, there was 29.5 percent drop in seafood market foot traffic from early to mid-March of 2020. Compared to 2019, foot traffic is down 20.8 percent for the month of March.

## Alaska fish landings data



For the first 20 weeks of the year, there were 45.8% declines in Alaskan halibut landings in 2020 compared to the previous two years. There were 20.7% declines in Alaskan sablefish landings in 2020 compared to the previous two years.
